During this session, Joel will discuss how the tenets of improvisation create successful teams during change and disruption. Joel has spent the past 30 years performing and teaching lessons of improvisation. This interactive, engaging and hilarious session will focus on staying in the game; facing fear; building trust, and asking the important question, "How do I help the people around me be successful?" Joel will also bring his famous TA DA energy as he discusses the importance of opportunity, positive support, and active listening in collaboration. Yes, you will have fun and laugh during this session. You will also learn how to collaborate more successfully as a team and navigate change. Are you ready for the TA DA?
